Trump throws up the "Communist Fist" daily. Trump praises Putin the communistic dictator of Russia. Trump praises Xi the communist dictator of China. Trump praises Kim Jong Un the communist dictator of North Korea. Trump said to the entire world numerous times he wants to be a dictator. The raised fist is a long time symbol used by Communists and even incorporated by the Black Panthers who are also documented communists. Trump resides in Florida the primary doorway to Cuba a communist nation still closely allied with Russia. Cuba to this day has spies in America stealing secrets and selling them to Russia. Trump invited Prince Carlo of Bourbon Two Sicilies the Duke of Castro to Mar-a-Lago. Prince Carlo is the manager of the Castro communists of Cuba. The founders of modern Communism were the Jesuits where they went to South America and created "Jesuit Reductions" Prince Carlo's direct ancestor Pope Paul III or Alessandro Farnese established the Jesuits as a military order under the Vatican. The Farneses were the Dukes of Castro. Communists are documented for using gaslighting tactics which is a common behavior of abusive people. Gaslighting is usually when an abuser attacks another and then denies it and calls their victim crazy. They project their behaviors onto their victims. They gossip and spread lies and slander to get others to side with the abuser. This is also the foundation of gang stalking. MAGA cult members use gaslighting constantly. Trump says he wants to become a dictator and they deny it it or downplay it and then attack people for criticizing him. This is what Kennedy was warning America about right before he was killed. Communism and secret societies.
